Re: - December 2010 Progress Report, Remedial Action  
Former Computer Circuits Site, Hauppauge, New York (CERCLA-02-2009-2015)

Dear Mr. Dannenberg:

In accordance with Paragraph 50 of the Administrative Order on Consent (AOC), P.W. Grosser Consulting, Inc. (PWGC) has prepared this progress report covering items completed during the month of December 2010 and proposed actions for the period of January 1, 2011 through February 15, 2011.

## Activities Completed During December 2010

Significant activities and tasks initiated or completed during December 2010 were as follows:

- PWGC performed monthly O&M inspections of the North and South SVE Systems (12/22/2010).
- PWGC performed semi-annual indoor air sampling at the site (12/22/2010).
- PWGC performed semi-annual groundwater sampling at the site (12/28/2010 to 12/30/2010)

## Sampling Summary and Results for December 2010

Indoor air and groundwater samples were collected from the site in December 2010. However, as of the date of this letter, analytical data has not been received. Analytical data and laboratory reports will be included with the January 2011 Monthly Status Report.

## Required Work Plans and Reports Completed During December 2010

The following work plans, reports and/or other deliverables were completed and submitted during December 2010:

- November 2010 Monthly Status Report (12/3/2010).

## Activities Scheduled for January 1, 2011 through February 15, 2011

PWGC anticipates that the following work will take place during the periods of January 1, 2011 through February 15, 2011:

- PWGC will perform monthly O&M inspections of the North and South SVE Systems (1/19/2011).

## Additional Scheduling Information

PWGC anticipates and/or has encountered the following delays that may affect the future schedule for work at the site:

- Due to heavy snow during the week that semi-annual groundwater sampling was performed, several monitoring wells were inaccessible, and, as such, no groundwater samples were collected. Monitoring wells MW-4, MW-8, and ERT-MW-12 (S/D) were inaccessible due to snow.
- Onsite monitoring well MW-6 appears to have been covered over during landscaping activities at the site; PWGC will attempt to locate and collect a sample from MW-6 during the next routine sampling event.

#### **Work Plan and Schedule Modifications**

The following modifications to approved work plans or schedules have been proposed and/or approved by EPA during December 2010:

- None

#### **Community Relations Activities**

The following community relations activities were initiated by PWGC during the month of December 2010:

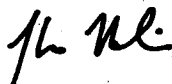

- None

PWGC anticipates that the following community relations activities will take place during the period of January 1, 2011 through February 15, 2011:

- None

In accordance with the AOC, EPA will be notified in writing of any change in this schedule. Should you have any questions, or require further information, please do not hesitate to contact me.

Sincerely yours,  
P.W. Grosser Consulting, Inc.

Thomas Melia  
Project Manager
